

# COVID-19 COCONINO COUNTY SCHOOLS UPDATE

COCONINO COUNTY  
*September 4, 2020*

# Introduction

The Arizona Department of Health Services (ADHS) recommends the following benchmarks for policymakers to make decisions about returning to a hybrid model of instruction:

- *Decline in cases **or** less than 100 cases per 100,000 individuals for two consecutive weeks.*
- *Two consecutive weeks with percent positivity below 7%.*
- *Two consecutive weeks with hospital visits for COVID-like illnesses (CLI) in the region below 10%. (CLI data is not available by jurisdiction and will be displayed at the Coconino County level).*

School benchmarks model a **pass/fail** system.

Passing thresholds for schools approximately align with a **moderate** level of community transmission.

**Green** check marks in the table below indicate benchmarks for hybrid instruction that have been met.

CLI is reported on page 8 using hospital surveillance from the ADHS dashboard at the county level. Not all county hospitals are reporting CLI. Percent positivity numbers may differ from ADHS, as ADHS does not include non-electronic lab reports in % positivity calculations.*
